Abstracting & Indexing

Journal of Research in Education and Teaching is indexed by the organizations listed below.

Szczepanski's List of Open Access Journals (EBSCO)

Applications have been made for some indexes and the evaluation process continues. The index update of the journals should be checked from each database.

From the Editors

Dear Colleagues and Readers,

We are pleased to present the first issue of Volume 15 of the *Journal of Research in Education and Teaching*, featuring two articles contributed by esteemed researchers from different institutions. As in our previous issues, all manuscripts have undergone a rigorous peer-review process conducted with great dedication and scholarly care by our reviewers. Our journal continues to attract considerable interest within the academic community, and the review process for numerous submissions received from various universities and institutions is currently ongoing.

Beginning with this issue, and in line with a decision made by our renewed editorial team, the journal will accept manuscripts submitted exclusively in English. This transition is intended to enhance the journal's international visibility, foster scholarly exchange among researchers from different countries, and increase the accessibility of published research to a broader global audience. We believe that this step will contribute to the journal's internationalization efforts and support the wider dissemination of knowledge and research in the field of education.

The *Journal of Research in Education and Teaching* is an international peer-reviewed journal. We would like to express our sincere gratitude to our reviewers for their invaluable contributions to the evaluation process, to the authors who have entrusted us with their scholarly work, and to our readers for their continued interest and support.
